

Rotary Club of Carleton Place and Mississippi Mills

Meeting of 8 February 2016

Twelve members were present for a business session and to hear our speaker Dr. Kelly Johnson, a chiropractor from Perth. The following decisions/discussions took place:

- 1. Meetings: Due to the fact that only 50% of members had indicated their intentions of attending the "In Search of Franklin" talk in Arnprior on Friday, March 4 the meeting of February 29 is reinstated. There will be no meeting next week (February 15) which is Family Day in Ontario.**
- 2. Teresa reported that interviews had been arranged for the candidates to attend the Adventures in Citizenship session. She also asked those working on sections of the charitable status application to have something in to her next week.**
- 3. Casino Night: For those members interested in attending the Rideau Canoe Club's casino night to learn from their experience it is being held on February 26 starting at 6 pm. Call Brenda for further details if you are interested.**
- 4. Mike reported that the cost of the compost this year has gone up by 6% and only the smaller bags are available. There was consensus that we must stay with the larger bags and Robert is going to try to find another source. Teresa indicated that she is exploring whether we can get members of the local fire departments to help us with the bagging.**

We then had an interesting presentation by Dr. Johnson who has been practicing in Perth since 1994. She outlined the four different approaches to chiropractic treatment, viz, structural, biochemistry, toxins and emotional but focused on the latter using Rotarian Mary as her uncomplaining patient. There was much interest as it was an approach to the treatment of pain and anxiety that was new to most of the members present.

Remember, no meeting next week.
